

## We are looking for reinforcement!

Our international company SET Sustainable Energy Technologies GmbH, based in Klagenfurt, Austria, specializes in the development, testing and construction of mechatronic drives. Our goal is to revolutionize the energy industry with our innovative and energy-efficient drives. In this way, the SET makes a significant contribution to a sustainable future. To strengthen our team, we are looking for a

### Chinese-speaking Sales Manager (m/w/d) part-time position (10 – 20 hours/week)

#### MAIN TASKS

- Support in international communication (especially China)
- Sales support in international projects in the Energy and Oil&Gas industry
- Support in marketing activities
- Being a contact person for commercial questions and technical inquiries.

#### YOUR PROFILE

- English and Chinese proficiency in spoken and written
- Good German knowledge as an advantage
- Experience or interest in mechanical or electrical engineering
- Higher education (FH, HTL or another technical degree) with a focus on programming, electrical engineering or equivalent as an advantage
- Structured, solution-oriented and independent way of working.

#### WE OFFER

- We offer a broad field of activity with a lot of creative freedom for a young dynamic team.
- The salary amounts to EUR 29.000,-- gross per year (on a full-time basis). With appropriate professional experience and professional qualifications, a surplus is of course possible.

Does this position appeal to you? Then we look forward to receiving your application by e-mail.
